Wichita Dwight D. Eisenhower National Airport

A great place to land your business.

Wichita Eisenhower National Airport (ICT) is a small hub air carrier and general aviation complex, providing accommodations for all aircraft, as well as the latest innovations in passenger convenience, safety and efficiency. As Kansas' largest airport, ICT draws passengers from the Wichita metro area, two-thirds of Kansas, and Northern Oklahoma.

Wichita Dwight D. Eisenhower National Airport is conveniently located 5.2 miles southwest of Wichita's central business district. It is bordered by U.S. Highway 54/500, Highway K-42, and has easy access to I- 235. A total of 507 acres are available for development.

New terminal, Parking Garage & Rental Car Center opened June 3, 2015

Wichita Eisenhower National Airport (ICT) Specifications

The Wichita Airport Authority leases land and improvements on a long-term basis to tenants who receive these potential benefits from the Authority's tax-exempt status, including the following:

1. No general property taxes payable on the land

2. No general property taxes payable on improvements owned by the Authority

3. Improvements can be financed with municipal bonds at tax-exempt rates of interest

4. Sales tax exemption for development on airport property.
