

294 ACRES ARE AVAILABLE FOR DEVELOPMENT

Jabara Airport is a general aviation reliever airport that features the Embraer Business Jet Service Center and Midwest Corporate Aviation, a full-service fixed-base operator with a Cessna Service Center. The airport is adjacent to the National Center for Aviation Training (NCAT) at WSU Tech. NCAT also incorporates facilities for Wichita State's National Institute for Aviation Research. Jabara Airport is conveniently located in the developing business district of Northeast Wichita, and has easy access to Highway K-254 and Highway K-96.
